# DELEGATE INFORMATION

**19th ANNUAL FLIGHT OPERATIONS CONFERENCE**
2nd & 3rd December 2026, Atrium Hotel, London Heathrow UK

AIRCRAFT COMMERCE

aircraft IT MAINTENANCE - OPERATIONS

# WELCOME

We are delighted to welcome you back to the 19th Annual Flight Operations Conference. 2026 has been a challenging year, highlighting strong reasons for airlines and operators to build resilience and practice threat avoidance but also grasping the positive opportunities available from new and powerful IT solutions, the focus of this conference.

Digital capabilities are indispensable in modern Flight Ops. Efficient processes, informed decisions, integrated and enhanced IT platforms need data, with digital solutions to collect and process it, for safety and efficiency benefits to be realised. For airlines and operators, the challenge is to unlock those digitization benefits. Added to that, the global drive to carbon net zero remains high on Flight Operations' priorities and agendas. Other challenges for flight planning and fuel management include global uncertainties resulting from conflicts and global instabilities as well as extreme weather events closing airspace. The rise in demand for flying, the pressure on turnaround times, political and economic tensions remain challenges for aircraft operations.

This year's Flight Operations Conference will showcase the best solutions to address these challenges with a positive outlook. Processes and tools to plan and build long-term resilience will point the way to a better managed future. Digital flight deck and operations, sustainable aviation, the latest real-time flight deck Apps, on-ground and flight deck connectivity and EFFs to ease pilots' workload will be key-note topics along with the latest ATC developments, using ETLs to integrate flight ops with M&E, aircraft and engines developments and much more.

Along with demos of the latest digital solutions and Apps, airlines and operators get unique opportunities to meet leading flight operations solution vendors, discuss the challenges they face and their priorities. The conference agenda includes case study presentations sharing the experiences of airlines and operators who have already embraced a digital future. The established line-up of industry experts and more will be there to help you unravel and understand what is happening in Flight Operations today and the exciting opportunities available to airlines and operators in the future.

We are excited to see you in London in December.

**Ed Haskey | Events Director | Aircraft Commerce and Aircraft IT**

## CONFERENCE HIGHLIGHTS

This conference provides you with a number of fantastic opportunities:

- **Conference Agenda:** A Two-Day Agenda of airline case studies and keynote presentations; covering the latest trends and developments in this rapidly developing sector of the industry. Click on the 'Agenda' tab above for full information.
- **Exhibition Area:** 50+ leading Aircraft Flight Operations IT and hardware Vendors are showcasing their latest solutions. Demo all the leading solutions in just 2 days. See overpage for a full list of vendors exhibiting their solutions.
- **Join 400+ attendees:** Network with your peers at airlines, Operators, OEMs, IT Vendors, Regulators and Consultants worldwide – share experiences and ideas.

# EXHIBITORS

## DOUBLE PLATINUM EXHIBITORS

AVIOBOOK a Thales Group Company
Flightscape
OpenAirlines

## PLATINUM EXHIBITORS

AIR SUPPORT
Aviaso connecting aviation and software
ASG AVIONICS SUPPORT GROUP, INC.
CATHAY TECHNOLOGIES
COMPLY365
emnify
Flygprestanda Performance Engineering
Lufthansa Industry Solutions
Lufthansa Technik
M3 SOLUTIONS
PIVOT Better Connection. Better Protection.

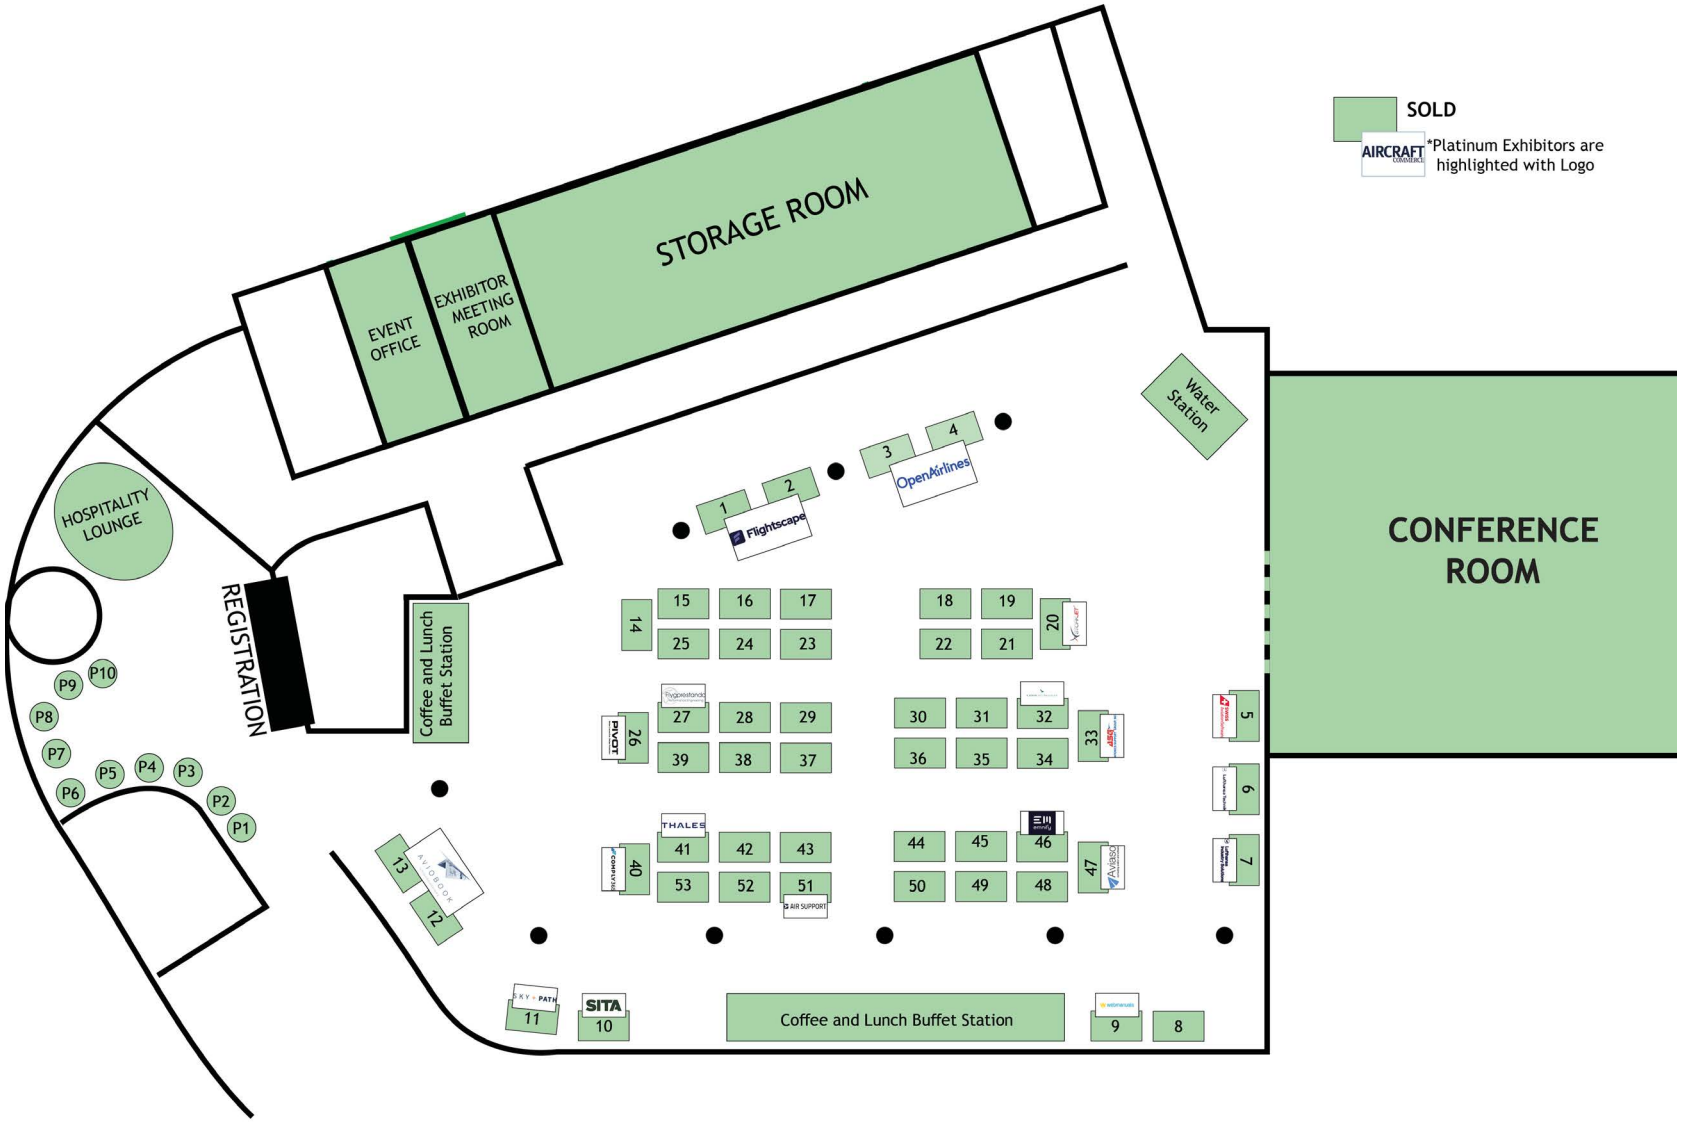
# CONFERENCE FLOORPLAN



# SOFTWARE DEMONSTRATIONS

A key benefit to this event is that it allows airlines aircraft operators, and OEMs with an excellent chance to review and demo all the major software and hardware solutions in one place, in 2 days. Extended refreshment breaks provides time to browse the exhibition area, and:

- Demo the different Flight Operations solutions from the world's leading vendors and discover how they could benefit your company.
- Try out the latest system upgrades and add-ons to compliment your existing systems.
- Discuss with the exhibitors how best to overcome any problems you may the having with your current systems.

**Systems available to demo in the Exhibit Hall include:**

- **Sustainability:** Fuel Efficiency Solutions, Real-Time Flight Deck Apps
- **Digital Manuals and Content:** Flight Ops Doc Management, Apps for Engineers and Pilots
- **EFB:** Latest Full Systems, Pilot Apps, Real-Time Flight Deck Data,Aircraft Performance
- **ETL / ELB:** Pilot, Crew and M&E solutions and Apps from all Leading Suppliers
- **Flight Ops:** Digital OCC Apps, Flight Planning, Connectivity, Real-Time Weather
- **Data Analytics:** Predictive Analytics, Digital Twins, Reliability Reporting
- **Digital Innovations:** Mobile Device Management, Data Exchange Platforms,and more

# AGENDA

The two-day agenda includes keynote presentations, case studies, interactive workshops, and IT Vendor Showcases; all delivered by airlines, aircraft operators, OEMs, MROs, Consultants, Regulators and IT Vendors to provide delegates with varied and interesting insights into the key topics in this constantly evolving aviation sector.

Listen to success stories from airlines and operators, and keynote presentations from industry experts covering crucial topics.

**Presentations and Case Studies Currently Confirmed include:**

- Managing Diverse Flight Operations Through an Integrated Digital Platform, ***Amelia***
- Building a Unified Digital Flight Operations Environment, ***Salam Air***
- Driving Flight Operations Efficiency Through Data and Digital Decision Support, ***Azul Airlines***
- Scaling Sustainable Aviation Fuel from Airline Commitment to Commercial Reality, ***IAG***
- Transforming Flight Operations with Real-Time Weather Intelligence, ***British Airways***
- Reducing Flight Deck Complexity Through a Digital Flight Folder, ***Cathay Pacific***
- Building and Scaling a Data-Led Fuel Efficiency Programme, ***Air Astana***
- Digitising Flight Operations Through an Integrated EFB Environment, ***Centrum Air***
- Using AI to supercharge EFB workflows, ***United Airlines***
- Optimising Aircraft Weight and Balance Through Digital Load Control, ***Vueling***
- Integrating Digital Load Control and EFB Operations, ***Wizz Air***
- Optimising Flight Performance Through Real-Time Flight Path Optimisation, ***JetBlue***
- Predicting and Avoiding Congestion at Hub Airports, ***Thales***
- An update to the eVTOL / AMM market, and building an airline business case including a look at a potential route network within the UK, ***EA Maven***
- Achieving 30% Fuel Savings Through Next-Generation Turbofan Efficiency, ***deltaBurn***
- Managing ReFuelEU Aviation and Non-$CO_2$ Emissions Requirements in 2026/27, ***ETSverification***
- Management of ICAO FF-ICE Implementation in 2027, ***Air Support***

# AGENDA

**Other Case Study and Keynote Presentations to Include:**

- Enhancing Flight Efficiency with Advanced Wind and Weather Uplink Technology
- Future-proofing EFB operations with eSIM connectivity to cut complexity, boost security, and lower global roaming costs
- Enhancing cockpit efficiency with a secure, adjustable mount for Electronic Flight Bags
- Streamlining Manual and Compliance Operations with Digital Documentation to Improve Efficiency, Reduce Errors, and Enable Real-Time
- Updates using Predictive Analytics to Optimize Take-Off, Landing, and Cruise Levels
- Exploring Hybrid-Electric Regional Aircraft to Cut Emissions and Redefine Short-Haul Travel
- Implementing and Going Live with an Electronic Technical Logbook (ETL/ELB)
- Building an AI-powered, data led Fuel Efficiency Program
- Government policy priorities for decarbonizing the aviation industry. A round-up of key political priorities and the way forward to Jet Zero.
- plus lots more

# REGISTRATION

**DELEGATES INCLUDING:** consultants, IT Vendors, OEMs:

EURO € 950.00 / UK £ 795.00 / US $ 1065.00 – This option does NOT include accommodation*

* These are Early Bird prices – the prices will increase at close of business on the 4th November to EURO € 1,270.00 / UK £ 1,125.00 / US $ 1,395.00

---

TO REGISTER, please **CLICK HERE**
then select All other Delegates….

---

Aircraft Commerce have reserved a block of rooms at the conference hotel. For further instructions on how to book a room at this hotel, please **CLICK HERE**

---

**All delegate places include:**

- Conference materials
- Access to event App
- Meals and Refreshments 2nd & 3rd December *(Breakfasts, Lunches, Coffee Breaks am and pm)*
- 2 hour Cocktail reception on the 2nd December.

---

For our CANCELLATION & REFUND policy, please see our **Terms & Conditions HERE**

By registering using this form, it is assumed that you accept these Terms & Conditions

# CONTACT US

This brochure should detail everything you need to know about the event, however, please do not hesitate to contact us if you have any questions.

# TESTIMONIALS

It is becoming THE event of the year, very important for us to participate in for information gathering and networking

**Danish Air Transport**

Very useful to network with the right people and to share projects with other airlines

**Flydubai**

Very informative and relevant to the challenges faced by airlines today

**easyJet**
