MAINTENANCE – OPERATIONS

WELCOME

A warm welcome back to the Airline & Aerospace MRO & Flight Operations IT Conference - EMEA 2026.

With ongoing global challenges, the current objective for airlines and aviation is futureproofing and resilience; we need to face the future with confidence from being prepared, flexible and properly equipped. This conference always offers you a unique opportunity to review in person and in real time the most up-to-date and class leading technology to ensure your business is future ready. Managing costs, efficiency and regulation will always be with us but new opportunities and efficiencies from cutting-edge technologies like AI, large data models, digital and data analytics, as well as more familiar technologies, will support users to handle the future, face new challenges, grow and grasp opportunities with confidence. Moving away from the past, IT solutions that offer scalability and flexibility will be key to future success.

IT today is not just another tool for airline and aviation processes; modern processes are built around IT. Sustainability and future growth depend on it. The benefits of IT, like agility, flexibility and resilience, are clear to see. Emerging technologies like AI and large data models have the power to predict and handle the future. The challenge is unlocking that power. Matching the right IT solution to your specific business model and process needs is the key to success.

The Exhibition Hall has been extended this year to offer airlines, operators and MROs more access than ever to an even larger range of leading vendors, to discuss their needs and see demos of the latest digital solutions. There will also be the usual full conference agenda of case studies from airlines, operators and MROs, sharing their experiences implementing new up-to-date solutions plus what they have gained and learned.

We look forward to seeing you in Amsterdam in June.

Ed Haskey | Events Director | Aircraft Commerce and Aircraft IT

CONFERENCE HIGHLIGHTS

This conference provides you with a number of fantastic opportunities:

- **Conference Agenda:** A Two-Day Agenda of case studies, keynote presentations, interactive workshops, and vendor showcase sessions; covering the latest trends and developments in this rapidly developing sector of the industry. Click on the 'Agenda' link above for full information.
- **Exhibition Area:** 60+ leading Aircraft M&E / MRO and Flight OPS IT Vendors are showcasing their latest digital solutions. Demo all the leading solutions in just 2 days. See overpage for a full list of vendors exhibiting their solutions.
- **Join 600+ attendees:** Network with your peers at airlines, Operators, MROs, OEMs, IT Vendors, Regulators and Consultants from across the Americas region and beyond - share experiences and ideas.
- **Pre-conference Workshop:** See page 6 for full information and to register your seat in the workshop to register your seat in the workshop (9th March - 14:00 - 17:30).

SOFTWARE DEMONSTRATIONS

A key benefit to this event is that it allows airlines, aircraft operators, MROs and OEMs with an excellent chance to review and demo all the major software and hardware solutions in one place, in 2 days. Extended refreshment breaks provides time to browse the exhibition area, and:

- Demo the different MRO/M&E and Flight Operations solutions from the world's leading vendors and discover how they could benefit your company.
- Try out the latest system upgrades and add-ons to compliment your existing systems.
- Discuss with the exhibitors how best to overcome any problems you may be having with your current systems.

Systems available to demo in the Exhibit Hall include:

- **Sustainability:** Fuel Efficiency Solutions, Real-Time Flight Deck Apps
- **Digital Manuals and Content:** MRO & Flight Ops Doc Management, Apps for Engineers and Pilots
- **EFB:** Latest Full Systems, Pilot Apps, Real-Time Flight Deck Data, Aircraft Performance
- **ETL / ELB:** Pilot, Crew and M&E solutions and Apps from all Leading Suppliers
- **Flight Ops:** Digital OCC Apps, Flight Planning, Connectivity, Real-Time Weather
- **M&E / MRO:** End-to-End M&E / MRO Management Solutions, Digital Records
- **Mobile M&E Apps:** Real-time Mechanic Apps, Tool Tracking,
- **Data Analytics:** Predictive Analytics, Digital Twins, Reliability Reporting
- **Digital Innovations:** Mobile Device Management, Mobile Device Management, Data Exchange Platforms, AI Powered Solutions and Apps

- Sample and demo software, systems, and the latest technology from major industry vendors in the sold out exhibit hall.
- Focused presentations, case studies and workshops to address key issues relating to hardware and IT solutions
- Helps airlines, OEMs, and aerospace professionals select or upgrade IT system, or explore the latest technology advances
- Discuss the latest development & trends in civil aviation IT and systems
- [Click HERE for the latest event information](#)

PRE-CONFERENCE WORKSHOP AND PRE-EVENT WELCOME DRINKS

WORKSHOP OVERVIEW: AN INTERACTIVE SHOWCASE OF BEST PRACTICE ARTIFICIAL INTELLIGENCE USE CASES ACROSS INDUSTRIES AND HOW TO ADOPT THESE REAL EXPERIENCES IN AVIATION TECHNICAL OPERATIONS WORKSHOP

Monday, 8th June 2026 (Boston 12-14 Meeting Room)

14:00-17:30

During this Workshop session you'll learn how these proven practices may be used to:

- Optimize your operations, compliance, continuous improvement, and digitalization programs
- Using purpose built Real-time AI assistants with your data and in your ecosystems
- Using several media types to improve MRO IT software usage and adoption
- Process mining for automated continuous improvement
- Integrating existing forms and reports into workflows
- Proving compliance with aviation regulations- complete with risk registries and exposure scorecards
- Addressing compliance impact analyses
- Augmented Reality for interactive processes and procedures

Also, you will see specific (actual) use cases for:

- Documentation and content management
- Knowledge repositories
- Help desk and end-user support
- And more...

Workshop Hosted by: Allan Bachan, VP, ICF and supported by Interfacing Technologies.

15:30-16:00

REFRESHMENT BREAK

AGENDA

The two-day agenda includes keynote presentations, case studies, interactive workshops, and IT Vendor Showcases; all delivered by airlines, aircraft operators, OEMs, MROs, Consultants, Regulators and IT Vendors to provide delegates with varied and interesting insights into the key topics in this constantly evolving aviation sector.

Listen to digital success stories from airlines and MROs covering a wide spectrum of M&E / MRO and Flight Operations IT technology and processes. Companies presenting include: Qatar Airways, Boeing, Fokker Services, Transavia, Helvetic Airways, Wizz Air, Air Europa, World2Fly and more ...

Look out for the prize draw session at the end of day two, and your chance to win a US \$ 300.00 Amazon Voucher.

The conference agenda is currently being finalised. Check back soon for full details...

Presentations and Case studies Currently Confirmed include:

- Advancing Prediction-Based Operations Management at Scale, *Qatar Airways*
- Modernising Airframe and Component MRO Operations, *Fokker Services*
- Managing Flight Operations Documentation across Multiple AOCs, *Eurowings*
- Modernising Scheduled Airline Operations through Integrated Operations Management, *Helvetic Airways*
- Improving Wide-Body Maintenance Control with Digital Technical Logging, *World2Fly*
- Optimising Maintenance Planning with an Advanced Strategic Planning Platform, *Transavia*
- Enabling Fully Digital Technical Logbook Operations, *Air Europa*
- Managing Operational Exceptions with a Lean, Digitally Enabled Dispatch Model, *Wizz Air*
- Building a Unified, Data-Driven Maintenance Platform Through Deep Systems Integration, *Texel Air*
- Securing Tomorrow's Skies: A Thought Leadership Keynote on Cyber Resilience, *Boeing*
- Digitizing MRO Training and Qualifications Management, *Jet2*
- Executing Large Scale Fleet Migration to Electronic Technical Logbooks Across a Multi-AOC Operation, *easyJet*
- Managing Engineering Device Readiness and Data Synchronisation Across Multiple Maintenance Bases, *Canadian North*
- Digitising Operational Flight Plan Distribution and Pilot Briefing Packages Through an Integrated EFB Platform, *Hyperion*
- Enhancing OCC and Pilot Decision-Making Through Integrated Real-Time Weather Intelligence and Operational Data, *easyJet*
- Revolutionary Propulsion Disc Efficiency Technology with a demonstrated Double-Digit reduction in Fuel Burn and Emissions + Technology Deeper Dive & Test Results Revealed, *deltaBurn*

AGENDA

Other Case Study and Keynote Presentations to Include:

- Optimising Flight Trajectories in Live Operations Through Dynamic Flight Path Adjustment and Real-Time Data Integration
- Turning Operational Data into AI-Driven Fuel Efficiency and Emissions Reduction at Airline Scale
- Deploying an Advanced Electronic Flight Bag Platform with Integrated Real-Time Operational Data Applications
- Enabling Predictive Spares Planning Across Airline Networks Through Data-Driven Demand Forecasting
- Modernising Technical Manuals and Compliance Operations Through Real-Time Digital Documentation Platforms
- Executing Group-Wide M&E System Modernisation Across Multiple Airline Subsidiaries and Operating Models
- Digital Technical Records platform to optimise Lease Returns
- Scaling Operational Situational Awareness Across Airline Networks Through Integrated Real-Time Data Platforms
- Modernising Flight Folder Distribution Through Digital Briefing Workflows and Scalable EFB Integration
- and more ...

Vendor Showcase Sessions:

Your chance to quickly find out about the industry's leading solutions being demoed in the Exhibition Hall via these popular 6 minute showcase presentations. Showcase sessions include:

- Sustainable Aviation Solutions: Fuel Efficiency Management, Real-Time Pilot Apps, AI-Driven Apps, Predictive Analytics
- Digital Flight Operations Manuals and Content Solutions: Content Management, Pilot Reader Apps, Electronic Forms
- EFB and Flight Operations Solutions: Latest EFB Apps and AI-Drive Tech, Flight Planning, Take-Off & Landing Performance
- Electronic Technical Logbook (ETL / ELB) Solutions: Stand-Alone Full Systems, Pilot & Maintenance Apps
- MRO / M&E IT Solutions: End-to-End Maintenance Management, Real-Time Mechanic Apps, Predictive Maintenance, AI-Data Analytics, Tool Tracking

REGISTRATION

[CLICK HERE](#) To register online

A limited number of VIP delegate options available for Independent MRO Facilities.

Independent MRO Facilities have the choice of two VIP delegate registration options:

VIP Delegate **Option 1:** EURO € 305.00 / UK £260.00 / US \$ 330.00 - includes 2 night's accommodation at the conference hotel

TO REGISTER, please [CLICK HERE](#)

then select **OPTION 1** and enter which 2 nights of accommodation you require and we will book your room and send you a confirmation.

VIP Delegate **Option 2:** EURO € 100.00 / UK £ 85.00 / US \$ 105.00 - This option does NOT include accommodation.

TO REGISTER, please [CLICK HERE](#)

and select **OPTION 2**.

All delegate places include:

- Conference materials
- Meals and Refreshments 9th & 10th June (*Breakfasts, Lunches, Coffee Breaks am and pm*)
- Access to event App
- 2 hour Cocktail reception on the 9th & 10th June.

Bus Transfers:

- > To and From Schiphol Airport
- > To and From Amsterdam town centre
- To and From Noordwijk Beach

For our CANCELLATION & REFUND policy, please see our [Terms & Conditions HERE](#)

By registering using this form, it is assumed that you accept these Terms & Conditions

TESTIMONIALS

Very good - a nice balance between workshops, case studies and vendor sales activities. Also a very useful networking opportunity. I feel I learned about the vendors current software solutions and common issues problems in the MRO world.

Virgin Atlantic Airways

Very useful to network with the right people and to share projects with other airlines

Flydubai

Very informative and relevant to the challenges faced by airlines today

easyJet
